The Democratic nominees for congress in Alabama are clamoring for more help in their campaigns. Senator Morgan, Governor-elect Oates and all other available speakers have been summoned into service. Congressmen Crisp and Livingston of Georg's, have been asked to take a hand also. The Fourth, Seventh and Ninth Alabama districts are in a precarious condition for the Democrats. The Republicans are more than apt to win in at least two of them, on account

But there isn't any such line in Holmes' works! There is "They say that

in his prime." Is that the pathetic production referred to? "A little learning is a dangerous thing."—Lyndon Herald. Then again the Star says Saturday: "Trilby" has taken the place of "Sweet

by" is, a book or a song.

THERE is one point on which Bourke Cockran and Tom Reed seem to agree, and that is that the trouble with the control of the country two years, removed this uncertainty. He says everything will be all right in a year. Meantime prices are still falling. Whoever heard of prosperity during an era of declining prices. The public debt is increasing also, and that is not a very encouraging sign of returning prosperity. Mr. Cockran says Republican legislation is responsible for the uncertainty which has produced the hard times. Democratic legislation cannot be said to have improved the condition.

THE men who pose as reformers and call themselves Jeffersonian Democrats never seem to realize that the Democrat- The Prince de Sagan and His Remarkable ic party has wandered as far from the principles advocated by Thomas Jefferson as is the zenith from the nadic. Judge Tulley is one of these. In a recent interview he gave utterance to the fol-

"The Popullats are seeking-relief from are we sil, for that matter, but in my opinion that relief lies in a rigid adherence to the grand principles laid down by Jefferson and by voting and acting with the Democratic party. The Democratic party has always been the party of the people and siways will be, and in my opinion is the party that must ab-sorb the Populist movement, for the reasorb the Populist movement, for the reason that the Populists are protesting against the encroachments of powerful monopolies, and the system under which they have been erected. This is just what the Democratic party has always done. It will then, or should, if it does not, absorb all that is good in the Populist party and continue to be, as it always has been, the party of the people.

Jefferson is said to have been the original properties.

Jefferson is said to have been the originator of the Populist motto of "equal rights to all and special privileges to none," but the party of Jefferson has wandered a long way from that principle in these latter days.

The assertion that capital has been withdrawn from Kansas on account of antagonistic legislation by the Populists, has been made so often that it is famillar to everybody. Senator Harris of Tennessee, himself a Democrat, says that the same thing has occurred in Texas as the result of Democratic legislation. Here is what he says:

The remarkable growth of Populism in Texas is directly due to the action of the Texas legislature three years ago in passing an act prohibiting aliens from holding lands in that state. The result was that alien investors withdrew their money from the state, and disposed of their mortgages. Texas is now in the condition that gift-edged securities like United States bonds are unavailable in securing money at the banks at less than twelve per cent. The effect has been serious on the farmers, and many of them have gone over to the Populists on the belief that the political doctrines of and the Antenil Steeplechase club. The following tribute to the memory of Dr. Red Alexander by Dr. H. W. Roby was read at the doctors' meeting railroad Mr. C. E. Bretherton presided. Mr. Bretherton explained that the object of the gathering was to consider imporant proposals which would be submitted in view of the company's unsettled relations with the American government and the Southern Pacific railroad.

Mr. Huggins, a shareholder, moved that a committee of seven be appointed to take such steps as it might deem de-sirable to represent and protect the interests of the European shareholders.

He thought the committee ought to carefully enquire into the reason the railroad had fallen toto its present position. The committee must consider the vital question of the debt owed the government before arriving at a conclusion regarding what steps should be taken for re-constituting the lines. The motion

was carried unanimously. Mr. Clarence Smith, member of parliament for the east division of Hull, moved and night, that the committee secure the services of Sir Charles Rivers Wilson, the secretary and comptroller general of the national debt, who is believed to be about to retire from the comptroller gen-eralship, and arrange with him to go to America, in the Interests of the Euro-

pean shareholders of the road. The motion that the committee secure the services of Sir Charles Wilson and arrange with him to go to America in the interest of the European shareholders of the road was adopted.
